

Faculty position in Actuarial Science – Université Laval (Quebec City, Canada)

The School of Actuarial Science at Université Laval invites applications for a tenure-track or tenured faculty position in actuarial management of asset risk and financial mathematics.

The successful candidate will hold the Chair in Educational Leadership in actuarial management of asset risk - *Caisse de dépôt et placement du Québec* (for more information on this Chair, see <https://www.ulaval.ca/les-etudes/chaieres-de-leadership-en-enseignement-cle/les-chaieres-de-leadership-en-enseignement/gestion-actuarielle-des-risques-dactifs.html>). He or she will have access to a fund for pedagogical innovation, and research and teaching activities will benefit from a close partnership with *la Caisse de dépôt et placement du Québec*.

The applicant should have solid research experience in actuarial management of asset risk, financial mathematics, and/or quantitative risk management. He or she must be able to develop an excellent research program funded by governmental agencies and by the industry; to supervise undergraduate and graduate research projects, mainly at the master and doctorate levels; to offer high quality undergraduate and graduate teaching; to contribute to the evolution of the programs as well as to continuing education, especially in his or her field of expertise.

First French-language university in North America, Université Laval is among the most important universities in Canada. It offers a select environment in the heart of Quebec City, a UNESCO World Heritage site. Université Laval has always been a leader in actuarial science, offering a bachelor's degree program since 1968. Its School of Actuarial Science is unique in Canada, and offers master's and doctoral programs in actuarial science. Its endowed Chair of Actuarial Science has significant funding to support research projects.
